

MENTAL HEALTH AWARENESS WORKSHOP

Wednesday May 13, 2015
12:00pm – 1:30pm CMS 105

Come join us to learn about mental health in detail from a mental health specialist. This will give you a better understanding of how it may affect our everyday lives. People need to find out that it is as threatening as any other disease and it can destroy lives. Please support our school's student activities so we can enhance your learning experiences. Feel free to walk in or walk out anytime. Light refreshments and snacks will be included.
