SHARED GOVERNANCE EVALUATION PROCESS

The Shared Governance Oversight Committee (SGOC) established an evaluation process to evaluate the Shared Governance Committees, Budget and Planning Committee, Education Planning Committee, Student Support Services Committee, Technology Committee, Facilities and Planning Committee, and the Professional Development Committee. The process was established to ensure that the College adheres to institutional effectiveness, a systematic review of the Shared Governance process. This process ensures that the committees are following their charter, completing the goals and objectives of the committee, in addition to adhering to the LAMC Strategic Master Plan.

The evaluation process commences at the end of the spring term in May and is finalized in February of the following year. Each committee completes the Shared Governance Self-Evaluation form which is submitted to the SGOC in May. During the summer the SGOC performs an External Evaluation which is then presented at the September College Council meeting for review and comment.

The evaluation process also includes a Shared Governance Mid-Year Evaluation which commences in December at the end of the fall term and is due in January of the following year. The SGOC completes a Narrative of the Shared Governance Mid-Year Evaluations which is presented to College Council in February for review and comment.
