### SLOs & Related Institutional Learning Outcomes

1. **Information Competency**: Students will demonstrate information competency by applying aspects of literacy, research methods, and technological literacy. It includes consideration of ethical and legal implications of information and requires the application of both critical thinking and communication skills. Evidence will be the ability to find, evaluate, use, and communicate information in all four areas.

2. **Problem Solving**: Students will demonstrate the ability to solve problems by examining, assessing, using, and evaluating various approaches to developing solutions. Evidence will be the ability to observe and draw reasonable inferences from observations, distinguish between relevant and irrelevant data, define problems, analyze the structure of discipline or profession-based problem-solving frameworks, and to use such frameworks and strategies to develop solutions.
