1.5) What are your comments and suggestions for future SLO Summits?

Very informative and inspiring presentations by guest speakers. Also important activity in completing PDS with colleagues.

Great attendance working groups got a lot done.
Good attendance - would love more time for conversation and discussion of exercises - otherwise GREAT JOB!

I think the format worked really well and the guest speaker was really good. Made the PLO process seem less scary and was motivating.
Great workshop - love the simple approach to assessing Bob-Pacheco showed us. Also love the roll up assessment tool you and Nick created - I completed one this morning already. Thanks for taking care of your great work!

Excellent LENGTH
The presentations were clear and well presented.

Great speakers. I learned a lot.
Felt the group discussions were helpful and productive.
This was such a wonderful event. Very helpful to connect with other faculty.

Teach more methodological innovations, to develop the SLO.
Mr. Pacheco's presentation was spectacular. I never saw faculty so attentive. It was the best S10's presentation I have ever been part of. It has really opened my mind to new ideas that I can incorporate in my own career.

Thank you for all your hard work.

Without Mr. Pat Flood, there is no sunshine.
Very well done. I appreciate the presentation by Dr. Pacheco and Pat Flood. Very thorough and informative.

Dr. Pacheco's presentation was excellent. It was engaging and it made me reflect on the data of my SLOs.
Well structured as is (This is my first semester).

I especially appreciate the guest speaker's vast array of knowledge and his ability to take a complex subject (assessment) and break it down into manageable components. He inspired us and gave us specific ways to evaluate findings and close the loop.
Thank you for this workshop. It was educational and illuminating a seemingly daunting process.
Great day!

We need more support for specific problems.

Great job!

Thanks!
Perhaps more workshops!

More of the same
May we have an S10 summit twice a semester instead of once a semester.

Bob was really great on explaining assessment. Also good, quick group activities. I would like to see some of the articles/books he has authored.

Overall, good training.
More summits! They are very valuable & informative.
Concentrate more on basics, “how to” of SHOs & PLO’s.
I’m still confused on the mechanics.

Great job!
Great Job !!!
It looks like the assessments could be more thorough as we reviewed them. What are some supportive ways to improve these?
