Title 5, Section 55206 requires that each proposed or existing course, if delivered by distance education, shall be separately reviewed and approved according to a District’s certified course approval process. The distance education course should be reviewed through the cyclical review process of Program Review.

Curriculum Committee approval certifies the following requirement have been met. Follow-up on these items is maintained at the Department level by faculty teaching online/hybrid courses and through the faculty evaluation process.

**Course Quality Standards (Title 5, section 55202)**
The same standards of course quality are applied to the distance education courses as are applied to traditional classroom courses.

**Course Quality Determinations**
Determinations and judgments about the quality of the distance education course were made with the full involvement of the faculty as defined by Administrative Regulation E-65 and college curriculum approval procedures.

**Instructor Contact (Title 5, section 55204)**
Each section of the course which is delivered through distance education will include regular effective contact between instructor and students.

3. **HOURS FOR CONTENT DELIVERY AND INTERACTION.**

   Please show the approximate hours anticipated for student activities that take place to fulfill the requirements of “in-class” time as indicated on the course outline of record. For example, a 3 unit/3 hour lecture course has 54 hours of “in-class” time. Activities can include reading lesson module, quizzes and exams, participation and discussion forums, or mandatory face-to-face meetings (hybrid only). Activities DO NOT include activities which would normally be expected as homework such as reading the text, preparing and studying for exams, research assignments, or problem solving exercises.

4. **ACCESSIBILITY.** The Americans with Disabilities Act of 1990, section 508 of the Rehabilitation Act of 1973, and California Government Code section 11135 all require that accessibility for persons with disabilities be provided. Title 5, section 55200 explicitly makes these requirements applicable to all distance education offerings. One of the primary concepts of Distance Education (DE) is to offer students “Learning anytime, anywhere.” Therefore, all DE courses and resources must be designed to afford students with disabilities maximum opportunity to access distance education resources “anytime, anywhere” without the need for outside assistance (i.e. sign language interpreters, aides, etc.). Distance education courses and resources must generally be designed to provide “built-in” accommodation (i.e. closed or open captioning, descriptive narration) and/or interface design/content layout, which is accessible to “industry standard” assistive computer technology in common use by persons with disabilities.

After reading the statement above, is there any aspect of the course that cannot be made accessible to students with disabilities? Yes ☐ No ☐
If yes, briefly explain the problem and how that problem is resolved in the regular face-to-face class.

Note: It is the instructor’s responsibility to ensure that all course materials including, but not limited to, webcasts, podcasts, audio, and video, are made accessible and section 508 compliant. For more information, contact S. Khaled Hussain and/or Dave Green.
