High Tech High Touch Counseling Services-eSEP & Drop-In Sooner

We want to introduce our state of the art projects that are currently underway. They are geared to improve student success by making our services more accessible.

**e-SEP** is the new buzz word around Counseling. That’s because the department is getting ready to launch its new electronic student education plan (e-SEP) service. The department recently received training on Viatron, the program used to create and maintain the e-SEP. Beginning Fall 2014, the Counseling Department will assist students in developing e-SEP’s via a face to face appointment. The e-SEP is a live document that will now be available online. Other counseling areas will have access to the e-SEP, including programs like EOPS/CARE, DSPS, CalWorks, SSS-Trio, Veterans/International, STEM, etc.

**Coming Soon! Drop-In Sooner:**

The Counseling Department understands the need to be available sooner for students. As a result, students can follow these 4 simple steps to see a counselor sooner: 1) go to: [http://www.lamission.edu/counseling/online_counseling.aspx](http://www.lamission.edu/counseling/online_counseling.aspx), 2) select a projected drop-in time, 3) complete a simple online form & 4) wait until selected time. LAMC’s new online drop-in counseling service, is expected to reduces waiting times for our students.

Student Success & Support Program (3SP)

Is the new matriculation program that came about due to the passing of the Student Success Act of 2012, SB 1456. This law reorganizes enrollment priorities. Beginning Fall 2014 continuing and new students will be able to obtain an earlier registration appointment simply by completing an English/ESL & Math Assessment, Orientation, and meeting with a Counselor (AOC) to create a student education plan. These 3 services, (AOC), are intended to help students navigate through the college experience to successfully achieve their academic goals.

Assessment

Students will be directed to assessment services after completing the online application through CCC-Apply. There is Math, English to include reading and ESL assessments. It is highly recommend that students take the ESL assessment if they are currently learning the English language. It is important that students select the appropriate assessment based on their skill level since they are only eligible to assess once per academic year. The assessment test will determine which courses will be the starting point in core classes like English, Reading and Mathematics. For more detailed assessment information please visit: http://www.lamission.edu/assessment/.

Orientation

After completing an assessment, students will be directed to schedule an orientation session led by the counseling faculty. Orientations are offered at multiple times per week for student convenience. During the orientation, students will receive information on resources that will help them be successful while at LAMC. They will learn how to register for classes, as well as learn what steps to take to reach their academic goals. A one semester educational plan will be developed. For more information please visit the Counseling Department or call (818) 364-7655.

Counseling

The Counseling department offers a variety of services that are offered as walk-in/drop-in, appointments and online advising. It is now mandatory for all students to complete a comprehensive education plan if they have taken 15 or more units or have been enrolled in 3 terms in order to maintain their priority registration. For more information on how to meet 3SP and enrollment priorities please visit the Counseling Department or call (818) 364-7655 to find out how you can meet with a counselor.
