TRANSFER REQUIREMENTS FOR THE  
**California State University System**

General Education Approved Course List (2007-2008)

**IMPORTANT INFORMATION:** Courses on this list are approved for a specific academic year, which begins with the Fall 2007 semester, and remains valid through Summer 2008.

Students wishing to use a course to meet a CSU General Education requirement must be sure that the course is approved for the academic year in which it is taken. Courses on this list are approved by the Chancellor's Office for the 2007-2008 academic years. A course used in the certification process must be on the CSU GE Breadth approved list during the term in which it is taken. If a course is taken before it is approved for inclusion on the list, it cannot be certified. Similarly, a course that is taken after it has been removed from the list cannot be certified.

CSU General Education Certification is available to community college transfer students who complete the majority of their lower-division units at the community college.

Students who have taken courses at other colleges can have these courses "passed along" in the certification process. Los Angeles Mission College will certify courses taken at other California Community Colleges in the areas designated by the offering college. Courses taken at California four-year colleges, or accredited out-of-state two-year, or four-year colleges, will be certified if they are equivalent to courses on the CSU GE course list. Courses from foreign institutions cannot be used in the certification process.

Students requesting CSU GE "pass along" certification must complete at least 12 units in residency at Los Angeles Mission College.

### ADDITIONAL INFORMATION

1. Courses that are required for the major may also be used for General Education.
2. A course cannot satisfy more than one General Education requirement.
3. No more than two courses in a single discipline will be counted toward meeting General Education requirements.
4. Nine units of upper division General Education requirements must be completed after transfer.
5. Students who transfer to CSU may also complete the Associate degree in Liberal Arts by completing Health and P.E. courses to satisfy the General Education requirements for the Associate degree, having at least 56 transferable units, and by completing a total of 60 units.
6. Completion of the General Education requirements will not guarantee entrance into a university, but can increase the student's chances for acceptance.
7. LAMC recommends that students complete the lower division requirements for the major before transfer. Completion of these requirements may not guarantee entrance into the major, but can increase the student's chances for acceptance. Other lower division courses that are not offered at LAMC may be required for the major after transfer.
8. All coursework must have a cumulative GPA of 2.0 ("C") or better.
