Course Objectives

This course will deal with the unique problem of rendering the human form. We will work in a variety of media, and produce works with varying degrees of finish. Drawing from the model we will synthesize various techniques to gain a complete understanding of form, line, tone, mass and movement as they pertain to the representation of the living figure. In addition we will expand the requisite vocabulary necessary in discussing and analyzing our work. Prerequisite: Art 205.

Entry Level Expectations

Before attempting this course the student should be able to draw the human figure using accurate observed proportions and include a full range of values within the figure and the negative space.

Student Learning Outcome

Compose a drawing that uses two human figures. The drawing will demonstrate accurate observed proportions, and include a full range of values within the figures and the negative space.

Add Policy

Students will be added as space permits in order of a wait list established on the first class meeting.

Attendance

You must attend every class on time, and stay for the duration of the class. Three tardies are counted as one absence. Any tardy beyond fifteen minutes will be counted as a whole absence. Two absences result in a lowering of your course grade by one letter grade. **Three absences result in a grade of Fail.**

Please note that due to the impacted enrollment, any absence in the first four weeks of class (without prior notification) will result in your being dropped.

Grading

You will be graded on a point system; Usually 20 points for the homework, 100 points for the long project, and 200 points for each class work portfolio. Please see the course outline for the assignment due dates. These point totals may vary.

Grading Scale

A: 90-100% of the total possible points, so with a possible 700 points the range for an A would be 700-631; B 80-89% (630-561); C 70-79% (560- 491); D 60-69% (490-421); F 59% and below. This is an example; point totals may change.

Your Responsibilities

Be prepared for class by having all the required materials. If you don't have the materials that you need for the day, you will be counted as absent (see the attendance policy above).

You are required to spend six hours a week on homework for this class; you can of course do more if you desire. Please be realistic with your time management.

Assignments must be turned in on the date specified in the course outline. Your grade for the assignment will be lowered 10% in point value for each day it is late.

Keep all work in a professional condition.

Preserve all work.

Disabled Students

There are no concessions made for disabled students unless arranged through the Center for Students with Disabilities.

First Portfolio 206

Two pages (eight figures) of **5 minute gestures**, done in graphite, colored pencil, pastel or ink wash. Each figure should have a sense of form and volume arrived at through rendering the light and dark side of the figure. Proportion and foreshortening should be accurate, remember that initially, the figure is roughed in with wide, bold strokes of the chalk or brush. If line is used volume is carved out from geometric analogue. Line quality must be varied. **40 points**

Include **five long studies**, these are any drawing longer than 5 minutes. Think in terms of composition, what is the figure's relationship to the rectangle? Is the figure cropped or contained within the edges of the page? Are you showing the space around the figure? Your drawing should not be a small figure floating in a vast space. The pose (gesture) will be completely accurate. Proportion (measuring) will be completely accurate. All foreshortening will be completely accurate. The drawing must include a sense of volume and space either building from basic shapes and/or selected cross contours. Pay attention to surface anatomy; the clavicle, sternum, navel, pubic arch (these create a center line) and the rib cage, thoracic arch, and iliac crest. The drawing may include the underlying skeletal structure. A charcoal pencil (2B, 4B, 6B) sharpened as demonstrated in class is recommended. Tone i.e. light and shadow is allowed. **100 total points.**

Include **three drawings** done in the style of your old master. These are the same artists assigned for your homework (see above). You will need reference material that should include several reproductions of your master's **drawings**. Draw our model in the same style, with the same media, use the same scale, on the same type of paper that your master used. **60 total points.**

The complete portfolio is valued at **200** points.

Your portfolio must be in my possession within the first five minutes of class, or it will be considered late. No class time will be given to assemble your portfolio. All drawings will be stacked in order listed and be completely labeled, including your legible name and the type of drawing (contour, 20 min. gesture, etc.) and put in a slip cover of folded bond type paper, which should be labeled with your name. Any mislabeled drawing will not be accepted. Do not turn in more than is asked for. Do not submit two-sided work. All drawings will be in a professional condition. Do not fold, roll, or staple your drawings. The complete portfolio is valued at **200 points**. 10 % (20 points) will be deducted each class meeting the portfolio is late. The first portfolio represents one third of your final grade.

Art 206
Second Portfolio

Follow the previously stated procedures in presenting this, your final portfolio. The drawings to be presented must include the types listed.

Two pages (eight figures) of **5 minute gestures**, done in graphite, colored pencil, pastel or ink wash. Each figure should have a sense of form and volume arrived at through rendering the light and dark side of the figure. Proportion and foreshortening should be accurate, remember that initially, the figure is roughed in with wide, bold strokes of the chalk or brush. If line is used volume is carved out from geometric analogue. Line quality must be varied. **40 points**

Two Modern Master Studies, Media consistent with your master choice, Modern masters are: Giacometti, Francis Bacon, Egon Schiele. You should have several drawings by the same master in the same media to work from, and you are to render the model as your master would. **40 points total.**

Two head studies, charcoal. Head should be life size or larger and demonstrate the correct position and proportion of the head. Planer structure should be emphasized. Neck and shoulders should be indicated. **40 points total.**

Two value drawings, any media. The figure may be cropped, but should fill the page without an excess of negative space. There must be a complete range of value (at least six tones) and at least 40% of the depicted forms must appear fully rounded. The direction of light must be evident, and all highlights, reflected lights, mid-tones, and shadows must be consistent. Some of the value application may display a form following crosshatch. Remember that value in the negative space helps to de-emphasize the outline, making the drawing appear less flat. **40 points total.**

Two wet and dry media, this drawing should be executed on illustration board. Combine any two (or more) media, at least one wet and one dry. Choose pastel, graphite, charcoal, ink, ink wash, watercolor, watercolor pencil, colored pencil, gesso, or acrylic paint. **40 points total.**

Write a few sentences for each artist on your list, explaining why you like them, and what their art seems to be about.
