# **Expectations:**

**Self Motivation and Self Discipline** - To succeed in this class you must do all the <u>assignments</u> on time! You will need to make sure you are staying current with all reading, assignments, and activities.

• **ETUDES** - First go to ETUDES, http://myetudes.org/ and become familiar with the web-classroom. If you have questions, call me, email immediately so that I can help you work out those issues. Success in this class depends on being informed. As you visit ETUDES, read the document called "Tips." There are many important tips for you.

- Take an Active Role-The instructor's role in this class will be to provide you with resources and opportunities to explore and use them. I am here to guide you through as you learn therefore you will need to take active role in the learning process.
- Time Requirements This is a regular 3 unit class. You will need to spend at least the same amount of time you would working on traditional format classes. (approximately 6 hours a week). There are NO class meetings. This class is entirely online. "Each unit of lecture is equal to 18 hours of "seat time" in a normal classroom. Each unit of lecture should be accompanied by an additional 2 hours of study time. If a 3 unit lecture class is taught in 18 weeks, it would require 3 hours per week of "seat time." If that same class were taken during a 5-week Fall or Winter term, it would require 10.4 hours per week plus the additional 21 hours of study time. These are good rules for scheduling yourself to work on classes you take online."
- Interaction In online classes we stress interaction with your fellow students.

  Many times you will learn just as much from each other as from your instructor.

  Look forward to finding solutions, applications and other neat stuff and sharing it with your fellow classmates. Make sure that you participate in the discussion

  Forum assignments they are worth 10 points each.

# **Attendance and Participation Policy**

There are no class meetings but you are to <u>participate actively in online discussions</u> and activities. It will be to your advantage to log in to the class website <u>at least 3-4 times a</u> <u>week</u> to check on discussions and to work on activities. If you will be traveling or otherwise unable to access the class website for a period of more than a few days, drop me a note and let me know so that I won't wonder where you disappeared to!

# Plagiarism –This is important Plagiarism Defined

Plagiarism means using another person's work, writing, words, ideas, research, graphics, programs, music, pictures, data, and/or other creative expression without giving the other person full credit. You must enclose another person's words in quotation marks and cite your source(s), and you must give citations when using the ideas of another person, even if those ideas are paraphrased in your own words. Using words, ideas, computer code, or any work by someone else without giving proper credit is plagiarism. Any time you use information from a source, you must cite it.

### Plagiarism and the Internet

The Internet has become a very popular resource for information for student assignments. The same rules regarding plagiarism apply to resources found on the Internet as do to a printed source: when a student refers to work, writing, words, ideas, and the like or quotes from an internet site, he or she must cite that source. Many of the same rules apply when using visual information from an internet site; the source of the visual information or graphic must be cited. This includes definitions found online on Wikipedia, materials from blogs, twitter, or other similar electronic resources.

Useful Strategies to Avoid Plagiarizing another Person's Work

If you copy words, sentences, phrases, and the like from a text, put what you copy in quotation marks. This is especially important when you take notes. If you choose to paraphrase, be certain that you are not just rearranging or changing a few words. A useful technique is:

- A. Read the area you want to paraphrase carefully;
- B. Cover up the text with your hand, or close the book or computer page so you cannot see any

of the words;

- C. Write out the idea in your own words without referring back to the words
- D. Check your attempt at paraphrasing against the original text to be sure you have not accidentally used the same phrases or words, and that the information is accurate At times students accused of plagiarism claim that their plagiarism occurred without their knowledge or intent. Since ignorance of this fundamental rule is not a reasonable defense, it is best to become thoroughly familiar with the various ways in which plagiarism can occur and how to avoid plagiarizing someone's work. If you have any doubts or questions, it is your responsibility to ask your teacher for clarification.

If you are found guilty of plagiarizing, you are subject to disciplinary actions up to and Including suspension or termination from the program, so please study and do your best. First offense, you will receive a zero for the assignment in question. Any further offenses may result in expulsion from the class, as determined by the disciplinary action from the Office of Student Services.

Remember: If you plagiarize:

- a. You are only cheating yourself
- b. You don't learn to write out your own ideas or thoughts in your own words, andA: (Excellent) Meeting course requirements with a superior level of performance.

B: (Good) Meeting course requirements with a high level of performance.

C: (Satisfactory) Meeting course requirements with an acceptable level of performance.

D: (Unsatisfactory) Repeat course.

F: (Failing) Repeat course.

Cheating- unauthorized material used during an examination (including electronic devices), changing answers after work has been graded, taking an exam for another student, forging or altering attendance sheets or other documents in the course, looking at another student's paper/scantron/essay/computer or exam with or without their approval is considered cheating. Any student caught cheating will receive a zero for the assignment/exam and referred to the Department chair and/or Student Services for further disciplinary action.

Recording devices in the classroom- Section 78907 of the California Education Code prohibits the use of any electronic audio or video recording devices, without prior consent of the instructor. (including cell phones, laptops, MP3 players, and more) Reasonable Accommodations: If you are a student with a disability and require accommodations, please send me a private email. The sooner I am aware of your eligibility for accommodations, the quicker I will be able to assist the DSP&S Office in providing them. For students requiring accommodations, the DSP&S Office at Mission College provides special assistance in areas like: registering for courses, specialized tutoring, note-taking, mobility assistance, special instruction, testing assistance, special equipment, special materials, instructor liaisons, community referrals and job placement. If you have not done so already, you may also wish to contact the DSP&S Office in Instructional Building 1018 (phone 818/364-7732 TTD 818/364-7861) and bring a letter stating the accommodations that are needed.
