Course Description and Objectives: This course advances **reading comprehension skills** such as building vocabulary attack skills, finding main ideas and supporting details, making inferences, generalizing, and summarizing. Students will prepare for further college-level coursework by refining reading, study, and collaborative work skills. We will take condensed notes, attack vocabulary through word parts, annotate texts, formulate questions, manage time, and constructively collaborate on teams.

Student Learning Outcomes: Upon successful completion of this course, a student will be able to:

1. apply strategies for learning and using new vocabulary.
2. analyze paragraphs and longer passages to identify main ideas, major and minor supporting details, and patterns of organization.
3. apply study and reading strategies to improve academic performance.
4. evaluate various types of writing to differentiate between facts and opinions and to identify errors of reasoning.

What NOT to buy:

- yet another new cell phone
- more DVD movies, music CDs and a hundred more downloads, more Video Games
- expanded satellite TV service (you won’t have much time for TV anyway)
- more jewelry/tats/piercings, more shoes unless you really truly need a pair, more fancy clothes
- gym memberships (there’s an excellent gym on campus)
- drinks for all your friends at the bar and/or non-medicinal drugs
- fancy coffee everyday, bottled water, restaurant meals more than a couple times a month (learn to cook and make sandwiches and get a thermos if you like hot coffee, and buy a refillable water bottle)

... you get the picture... **you need money for textbooks, tuition, and other college expenses!!!** \$\$\$\$\$\$

II. Homework Assignments

- A. One hour per week independent **Reading Lab** assignments is **required**
- B. Read and **annotate** all materials and complete all exercises and written work **before** due.
- C. Whatever else the Professor decides is pertinent.

III. Attendance

Attendance is the single biggest predictor of success in college classes, according to research, and this one is no exception. You might not always want to come to class, you are very busy, you might be sick, and you might not find everything we do to be super exciting at the moment... on the other hand:

- you will definitely learn stuff that will help you **succeed in college and in the job market**
- you will definitely learn to read college texts better (and other materials)
- you will expand your vocabulary (and impress your profs, friends, and family)
- you just might enjoy reading better as you get better at it
- you will pick up interesting examples and previews of materials from a variety of different subjects like History, Sciences, Politics, Psychology, etc.
- you will meet some new people and maybe even make a friend or two
- you will learn to work together (**collaborate**) more effectively with diverse groups
- your speaking and writing skills will improve
- your general life skills will improve *as you practice* the techniques from class
- you might even find an interest in a career or major that you hadn’t thought of before
- you might get some laughs and have some fun

- NOTE: College policy allows that you may be dropped/excluded from the class after THREE absences; it is your responsibility to call or **email** me before class if you cannot attend class that day, but calling still doesn’t excuse the absence. ***You are responsible for everything that occurred during your absence, and absences do not mean you can hand in the due work or take the test later!*** You must get a hold of one or more of your Classmate Contacts to get notes, etc.
- NOTE: **Not showing up on the first day of class will result in your being Excluded/Dropped.**

It is up to you to contact me, and *also* to contact at least one classmate for missed material and class notes.

Quote of the semester: **“College is an exercise in stepping up.”**

RULES NOTES: Arriving at class late often, leaving early, and walking outside (except for urgent restroom) during class are unacceptable behaviors that distract others. Cell phones, laptops, etc. must be **turned off** during class; **cell phone use and texting are serious violations of academic decorum** and users will be **removed from the class and counted as UNEXCUSED ABSENCE(s)** and may lead to Exclusion. Cheating/copying will not be tolerated; Zero Credit plus cheaters are reported to the Dean for discipline.

Let me repeat: **Cell phones and texting are NOT ALLOWED in class. Cell calls NOT allowed in Lab and/or Library either.** *If you have a real problem with this rule, then drop this class right now, please.* (and btw, please turn OFF your cell phone at movies, concerts, etc.... thank you for not being rude.)

IV. Grading

- In-class participation, attendance, and completion of homework assignments including weekly Reading Lab work with RL Journal and Vocabulary Journal will be considered during grading.
- There will be a quiz for each chapter we cover.**
- ****note:** *Any quiz or test can also assess material from previous chapters, lectures, classroom activities or any and all other types of assignments; therefore, it is students' responsibility to constantly be reviewing all material covered.*
- There will be a "Midterm" Comprehensive Test covering the material presented during the first part of the session. The Final will cover the material presented during the second half of the session and some selected material from the first half.
- **To pass the course, you must earn at least 70% of the possible points.**
- **NOTE:** *Failure to take the Midterm or Final or will result in NO CREDIT even if you get all other possible points. Failure to do Reading Lab also means NC. These are required to pass.*

Points:

- Lab Activities – **NOTE: Hours cannot be made up if not completed when they are due.**
- Quizzes-- ... note: no coming the next session and saying "Can I make up the quiz?" No, you can't.
