C= 67%-76% of points	fitness performance= up to 40 pts possible for improvement
D= 57%-66% of points	
F= below 57%	final is Dec.10, Tuesday, 7:30-9:30 am

**Participation:**

10 points = full participation per class, level 5 on the Rubric (see below). Includes consistently taking part in lecture and activities while following set standards and rules. Including completing and handing in assignments by deadlines, being on time, leaving when dismissed, dressing appropriately, bringing required materials & supplies, and demonstrating respect to all staff, students, and property.

-10\* points-does not participate due to any reason, including not meeting dress code or disruptive behavior that deems expulsion from the class environment. NOTE: There is no "making up" classes as the clock cannot be turned back. Notes or written emails excusing you

from not participating have no value. If you do not participate in class on any day, for whatever reason, points cannot be earned or added to your total.

\*You will not be able to enter or participate if fitness center rules are not abided by. See rules posted or on waiver form. Safety first! No points or credit can be earned if not participating.

Fail = If a student drops below 57% of participation points, or does not participate in 7 or more classes, student success and safety will be compromised. In this case the student may be excluded, asked to drop, or failed depending on the time of the non participations in the semester.

Note: After 2 continuous non-participations occur, the student may be dropped from the class unless the instructor is notified of intent. Even if notified, once a total of 6 non-participations occur, the student will be excluded from the class, and will not be reinstated. No exceptions. This is for safety and to promote students earning a passing grade

Late to class? 1 point is deducted for each minute late to class, and/or for leaving before dismissal. Note that If 10 minutes of class is missed, no points are earned for point total.

Late is defined-1 minute after class start time, leaving early is defined-1 minute before dismissal. No credit, meaning no points, may be earned after you enter 10 minutes beyond class start time, or leave 10 minutes before class dismissal as 1 point per minute is deducted for each minute past class start time.

Pre and Post assessments are required. If any physical assessment is missed, it is your responsibility to arrange to completing the assessment within 5 days from when the assessments were performed during our class time. Contact the fitness center personnel to arrange 'assessment make ups". If this is not done, the participation and improvement points will be effected negatively.
