III. Attendance and Common Sense Rules

Doing homework is essential for your progress as the majority of your learning needs to occur outside the classroom, while you study, review, and apply the key concepts we cover in class. Regular attendance is extremely important. If you absolutely have to miss class, it is your responsibility to contact a classmate for information about materials covered and homework to be completed. Arriving at class late, leaving early, texting, listenieng to music, and walking outside are unacceptable behaviors that are distracting and disrespectful to the professor and your classmates. Please turn off your cell phone before entering class or set it on silent alert. Exchange phone numbers and/or e-mail addresses with three or four classmates; help and support each other. Students who work in groups get more out of the course. Pre-read the chapters, ask questions, participate! I will provide you with all the tools and guidance to help you reach a higher level of erudition and efficiency, but ultimately, this is your education, and its quality and quantity is up to you!

Please note that while there are a variety of honest and solid excuses for why you sometimes have to arrive late, leave early, or miss class altogether, the materials covered in this course are extremely complex, and the pace is frighteningly fast. Missed class time cannot be made-up by reading somebody's notes, doing an on-line tutorial, or reading a textbook. Choose wisely and take responsibility for your choices.

Also note that you must own the course textbook and your own set of handouts and bring them to class with you at all times. Without these materials your chances of success in this class are slim.

IV. Grading

- A. There will be 7 follow-up quizzes for each Unit we cover (except Unit 4).
- B. There will be a Midterm covering the material presented during the first half of the session and a Final covering the material presented during the second half session.
