Lecture : (W) CMS 105- 7:00-9:00 PM

Lecture: (S) CMS 004- 11:15 Am-12:10

Lab: (S) CMS-104 8:00-11:10 Am

Course description

This is an introductory course in human anatomy emphasizing histology, organs, and organ systems. Minor attention will be given to the respective physiology. There are both a laboratory and a lecture component to this class. Both are not only vital to success but are required to receive full credit.

The following text is required for the course:

Human Anatomy Lecture Outline;

Marie, Elaine Nicpon; Human Anatomy 8th & physiology and Laboratory Manual with Cat Dissections; (9-10th Ed); ISBN 0-805-5910-9

SLOs Anatomy 1:

- 1) Anatomy 1 students will develop a vocabulary of appropriate terminology to effectively communicate information related to anatomy.
- 2) Anatomy 1 students will apply gross and microscopic anatomy to identify histological preparations and anatomical structures.

You are expected to bring both the Lecture Outline & Lab Manual to every class meeting.

Recommended: Histology atlas Anatomy coloring book

Course work

1. **Exams.** There will be 3-4 exams; a midterm and a final, each worth 100 pts. Examinations will be multiple-choice and/or short essay. Material covered will include everything covered in lecture since the previous exam.
2. **Final exam.** There will not be a make up final. If you have difficulties coming to our assigned time for finals please contact me in advance to make special arrangements.

3. **Quizzes.** Either announced or unannounced quizzes will be implemented through out the semester at my discretion. Quiz content will include recently covered material and/or required reading for future content. There will not be any make up quizzes. 15 of scantrons # 882E and a # 2 pencil

3. **Laboratory Practicum.** There will be 3 laboratory practicum, each covering laboratory content since the previous practical. There will not be make up practicum. Your lowest score will be dropped at the end of the semester.

Grade distribution

Two Exams – 100 pts		200 pts
Final Exam – 100 pts		100 pts
3 Lab practicum – 50 pts		150 pts
10 Lab Exercises		100 pts
8-10 Lab Quizzes – 10 pts	Number of quizzes will vary	100 pts
		<hr/>
		650 total

90-100% = A 80-89.9% = B 70-79.9% = C 55-69.9% = D below 55% = F

Class Policies

1. **Attendance.** Attendance at every class meeting is mandatory. It is virtually impossible to succeed in this course without persistent participation in both lecture and lab. If you will be absent from class, please notify me in advance. If you will miss an exam you may use that exam as your dropped score.
2. **Exams and Quizzes.** All examinations and quizzes will begin promptly at the start of class. Anybody arriving after the first exam is handed in to the instructor will not have their grade counted. Similarly, when time is called on an examination, anyone who does not submit their work and continues writing will receive 20% off of their final score. If you leave the room during an examination prior to handing in your exam you will receive zero points.

There will not be any communication amongst students during exams in any form. If you have questions please see me and I will gladly try to help. If you have difficulties with the language or need similar assistance, please see me **in advance** so that we can make arrangements. As well, there **will not** be any instance in which you will require a calculator, PDA, cell phone, pager, computer, or any other such device. Please make sure that they are **turned off** and put away.

3. **Academic Honesty.** Santa Monica College on academic honesty will be **strictly** enforced. Anyone caught cheating on an assignment or examination will receive a zero on that assignment. Offenses considered serious by the instructor will result in permanent dismissal form the course as well as a failing grade.
4. **Students with Disabilities.** If you require special arrangements of *any kind* please make them with the instructor no later than the first week of class.
5. **Disruptive Behavior** will not be tolerated. Students who talk in class are not only disrespectful to the instructor but also to the students around them. There

will be many opportunities each day for discussion and conversation pertaining to course content, however please refrain from conversations during lecture.

6. **Cell Phones.** If you must have your phone on in class, please set it to vibrate. If your phone goes off in class, you lose a point from your class total. (I'll make it fair however, if mine goes off, you all get a point back).
7. **Food and Drinks.** Very simply, no food or drink in Lab or Lecture.

Spring 2014 Tentative Schedule

DATE	W-S, LAMC	REVIEW SHEET
02/10 02/15 02/19 02/22 02/26	Ch. 1: Introduction to Anatomy No Class Ch. 4: Tissue Level of Organization Ch. 6: Skeletal system & lab Ch 1-4 Cont... Quiz#1	02/15, President's Day – February 14 to 17- <i>College Close</i> <i>Exercise Pages:</i> 107-113, 127-134

Code of Honor and Integrity
Los Angeles Mission College
Department of Life Sciences

Students at Los Angeles Mission College, because they are members of an academic community dedicated to the achievement of excellence and the pursuit of honor, are expected to meet high standards of personal, ethical, and moral conduct. These standards require personal integrity and a commitment to honesty without compromise. Without the ability to trust in these principles, an academic community and a civil society cannot exist. Los Angeles Mission College students and faculty are as committed to the development of students with honesty and integrity as they are to the academic and professional success of its students.

The **Code of Honor and Integrity** is an undertaking of the students, first and foremost, both individually and collectively, that they will:

1. not give or receive dishonorable aid during exams, quizzes or assignments
2. do their share and take an active part in seeing to it that fellow students, as well as themselves, uphold the spirit and letter of the Code of Honor and Integrity.

Some examples of conduct that are regarded as being in violation of the Honor Code include:

- Copying from another's examination or quiz, or allowing another to copy from one's own papers
- Using any unpermitted source of information, human or other, during an exam, quiz or assignment that influences the grade; this includes the use of technological devices
- Any student-to-student collaboration that is unpermitted
- [Plagiarism](#) (plagiarism is defined as the use, without giving reasonable and appropriate credit to, or acknowledging the author or source, of another person's original work)
- Representing as one's own work as the work of another
- Giving or receiving aid on an academic assignment under circumstances in which a reasonable person should have known that such aid is not permitted

As a part of the effort to promote an environment of honesty and integrity during quizzes and examinations, the following guidelines will apply for any courses in the Department of Life Science

1. Students will leave all books and all other non-essential items (e.g. paper, electronic devices) on the floor so that they are not useable nor block the sight line between professor and student. No electronic devices will be in reach.
2. Students will not communicate in any way that will dishonorably assist themselves or another student.
3. Students will leave the room during an exam only if permitted by the professor's policy. If permitted, only one student may leave the room at any time and be gone for only the average

length of time needed for the stated purpose. Students will leave all purses, bags, books, phones, jackets, etc., in the classroom during the absence.

4. Students will promote the spirit and letter of the **Code of Honesty and Integrity** by dissuading fellow students from dishonest activity and, when such casual persuasion does not work, informing the professor of the possible dishonest activity, either anonymously, or otherwise. 5. Students will make every effort to avoid even the appearance of dishonesty or lack of integrity

Violation of this policy will not be tolerated and violators will be subject to severe penalties. The success of the **Code of Honor and Integrity** is based upon the collective desire of students, faculty and the community to live in an environment that embraces respect for that which is right – both in the college and in society as a whole.
