4. Timing of Comprehensive Program Reviews (CPRs)/validations – this was discussed at the PROC meeting on 10/7/2014, and PROC made the following recommendation:
   
   “Recommending a standardized timeline for completion of CPR validations across the divisions, such that they should occur in the fall semester for the units up for CPRs – this way the CPR/validation can be based on the most recent information entered into the program review screens the preceding spring, and will give the validation teams the summer to review the CPRs so that the validation process can be completed in the fall.”

   a. Is this the timeline that the three divisions plan to use for upcoming CPRs?
