Email: transfer@lamission.edu

## What you need to know to get health care in California

#### What is Covered California ??

Covered California is a new, easy-to-use marketplace where you and your family can compare health coverage options and choose the one that best fits your needs and budget. Through Covered California, you may be eligible to receive financial assistance to make health care more affordable.

### Covered California serves all Californians by helping to:

- Improve access to quality coverage. Covered California helps individuals learn about the health coverage options that best meet their needs, it also helps millions more who are not eligible for financial support, but who can benefit by using the Covered California marketplace and the insurance protections that are in place.
- Make health care coverage affordable. Covered California can help you find out if you are eligible for financial assistance that helps to reduce your health care costs. If your income is limited, you may be eligible for low-cost or no-cost coverage through Medi-Cal.
- Improve the health of all Californians. When you have health insurance, you don't have to wait for small health problems to become big ones. You and your family can have access to preventive care.

#### Start gathering the documents you will need to enroll:

- Social Security numbers for U.S. citizens, or document information for immigrants with satisfactory status. Families that include immigrants can apply.
- Employer and income information for everyone in your family. A family is defined as the person who files taxes as head of household and all the dependents claimed on that person's taxes.
- Federal tax information. If you don't file taxes, you can still qualify for low-cost or no-cost insurance through Medi-Cal.

### For more information:

Visit www.CoveredCA.com to find help in your local community.

Austrace in numerous languages is wellable. Excelment architects, including undetence from Certified insurance Agents, in free.
