*Intermediate Algebra*

Fundamental laws, exponents, radicals, equations (linear, quadratic, and some of higher degree), systems of equations (linear and quadratic), graphic representation, logarithms and binomial theorem.

The Weekend College classes combine online assignments and weekend class meetings in an accelerated format, covering a lot of material in a short period of time. You must complete all components to successfully pass the class. The course requirements are in the instructor's syllabus. **See login instructions below.** The term is just eight weeks, and you can expect to spend 10 to 12 hours per week completing the assignments. Schedule time in advance for reading the textbook, completing online assignments, and attending class each weekend.
