On this model the spleen is shown drawn away from the left kidney to expose its renal surface. The peritoneum is removed except over the spleen. The pancreas is shown somewhat lower than normal.
CARE OF DENOYER-GEPPERT MODELS

Your Denoyer-Geppert model was designed and manufactured to provide years of satisfactory service. Our models are molded of durable vinyl plastic. The finest lacquers and inks are used in the hand-painting and numbering of all of our models.

In order to clean the model, you should wipe it with a damp cloth, or a cloth wet with a mild soap solution, and wipe dry.

Avoid placing the model in direct sunlight for extended periods. A cloth cover or case will help keep the model clean. Plastic covers should not be used.
