THEATER
Los Angeles Mission College (LAMC) has been awarded $4.3 million by the Department of Education’s Hispanic-Serving Institution (HSI) to establish a comprehensive Science, Technology, Engineering and Mathematics (STEM) Center combining academic and student support services.

The Center will serve as the hub for STEM faculty and students, strengthening academic services by expanding tutoring, math workshops and summer bridge programs for STEM students; supporting curriculum development in math, life science, physical science and computer science; renovating the computer science lab and upgrading technology; offering STEM Summer Academy to incoming STEM majors, and expanding and formalizing the undergraduate research program. “We are committed to helping students access quality science, technology, engineering, and mathematics education,” said LAMC President Monte E. Perez. “The funds will be used to build capacity in student support services while increasing the number of students graduating with degrees in math and science.”

The project’s goal is to improve STEM success and access for students. This grant presents a wonderful opportunity to represent the science disciplines more significantly at LAMC.

The HSI STEM project will run for a period of five years, October 2011 through September 2016.

What do our STEM faculty say about the opportunities the STEM grant will bring to students?

Mike Reynolds, Chair, Life Sciences
“The new STEM grant at Los Angeles Mission College will provide students and the surrounding community with greater opportunities to explore the sciences and to seriously consider them as a career path. Since science, math and engineering are at the core of innovation and technology and are fundamental to a strong economy, it is vitally important that Mission College students experience the excitement that goes along with these fields as they represent the majority of high-paying jobs of the future.”

Said Pazirandeh, Chair, Physical Sciences
“The STEM grant and the programs and support it provides to Mission College are a great opportunity for faculty and students at the college to build a community that supports higher learning and professional growth in the fields of science, mathematics, engineering and other technology related disciplines. It is my hope that through the use of these resources, Mission college develops itself into a state-of-the-arts learning center for the related disciplines, and provides its students the highest learning environment possible.”

Robert Smazenka, Chair, Math, Computer Science & Engineering
“This grant will give the STEM faculty a unique opportunity to provide our students with access to the sciences and mathematics. Integrated new curriculum will demonstrate the integral part mathematics plays in the sciences and engineering and enable our students to develop an excellent foundation for further study. Reinvigorating the Computer Science program and facilities will provide our students with the courses, computing facilities, and technical experience necessary to succeed in the STEM disciplines. We look forward over the next five years to meeting the challenges these opportunities present and establishing programs that will continue to support our students well into the future.”

Mike Fenton, Chemistry Faculty
“I’m excited to be a part of the STEM community and to be able to encourage and promote student participation in all of these areas. The STEM grant will provide important resources for students to excel in the STEM areas. Traditionally, the sciences, technology, engineering, and math are difficult topics for students; however, with additional resources faculty will be able to optimize the learning experience, and provide the support needed to properly guide students through these disciplines. This in turn should better prepare students for university transfer and/or careers in these flourishing fields. Ideally, the STEM opportunity will enrich the learning experience and create an environment conducive to encouraging interested students to pursue their education in the STEM fields.”

Angela Echeverri, Microbiology Faculty
“As a faculty member in the Life Sciences Department, I am confident that this STEM grant will provide many of our students with the opportunities and support they will need to successfully pursue careers in the sciences. As the parent of school age children, I particularly look forward to collaborating with the local high schools so we can develop stronger academic pathways for the young people in our community. The first phase of the STEM grant will coincide with the opening of our new Math & Science building in 2012, providing even more resources and opportunities for our students. This is a very exciting time for Los Angeles Mission College.”
What do our STEM faculty say about the opportunities the STEM grant will bring to students?

Tigran Mkrtchyan, Math Faculty
“I am greatly excited about the STEM grant. This grant will help us to offer our students all the support they need to succeed in STEM fields. Here are just some of the things we could offer: Labs with newest technology, online one-on-one tutoring, classrooms with tablets for each student, newly redesigned classes that we could not afford to offer before, summer intensive STEM camps where students discover and explore Math and Science, interesting presentations about how Math and Science are used in almost every aspects of our life, student research projects...and more. I have been explaining the benefits of choosing STEM as a major to my upper level classes since my day one at LAMC. I talk about how Math and Science are being used in creating all the cool technology they use (iPad, GPS and so on) and that the STEM fields offer many opportunities for high paying jobs.”

Yoon Yun, Math Faculty
“I am very excited to be a part of the STEM community to help our students succeed in this field. It is a great opportunity to help students realize and appreciate how closely science, technology, engineering, and mathematics are inter-related in enhancing human life. Expanding the tutoring service and computer lab, providing additional workshops and summer bridge programs, creating and improving curriculum, and offering in-depth counseling will definitely improve students’ success in STEM fields. A great deal of resources will surely be available through the STEM grant and faculty and students will work together to maximize the benefit of these resources for reaching the common goal of improving STEM success and access for students. I have already shared the good news about the STEM grant with my calculus students. I informed them that the STEM courses will provide more opportunities and open doors to continued higher education that eventually leads to successful careers. Their response was excitement and enthusiasm to be part of the STEM community at Mission College.”

Mari Rettke, Computer Science Faculty
“I am very excited to be a part of the STEM community. Students often have difficulty imagining how classroom learning translates to future jobs. This grant will give us the opportunity to provide our students with real-world applications of math, science and technology. We visualize field work projects resulting from a collaborative effort between the LAMC STEM community and local industry bringing science, technology, engineering and math alive. Documented service projects will give the students needed hands-on skills and the confidence necessary to take advantage of higher education opportunities. The STEM grant will provide the curriculum development and student support services necessary to produce students who will serve as mentors and leaders to other students.”

Richard Rains, Physics Faculty
“It is truly fulfilling for a teacher to watch a young person discover the excitement of science for the first time ... to see the lights going on in their eyes as the wonder of it all suddenly hits them. Our modern youths’ culture of waning scientific interest needs the shot in the arm that this STEM grant will bring to Mission College and, by extension, to the Sylmar area. So much great talent goes unused, simply because of lack of exposure and opportunity. This grant could well result in the re-directing of young lives into successful careers in science, engineering, math and technology. These lives could make a significant contribution to the re-vitalizing of American technology. We look forward with excitement to see it happen!”

Steve Brown, Biology Faculty
“I am very excited about the awarding of this STEM grant to our college. We serve a very wide range of students with regard to academic preparedness for college level course work in the sciences, and with the resources provided by this grant along with our new science facilities we can better serve students at all levels. I have no doubt that student success in the sciences will improve dramatically as a result, and consequently more and more students will be attracted to the sciences. It is a privilege to be involved in the coming expansion and development of what is already a quality science program.”

Debby Wong, Math Faculty
“Mission college has a group of devoted STEM faculty who have worked to update their science labs, equipment, software, and tutorial support as resources became available through various programs through the years. However, with the STEM grant, these disciplines will be able to combine their efforts to make major physical renovations to laboratories and classrooms, and offer significantly enhanced learning support and experiences. With additional counseling, tutoring, and the opportunity for hands-on experiments, simulations, field trips, and internships funded by the STEM grant, students will have valuable learning experiences that will support their working in STEM careers.”

LAMC Awarded $4.3M to Establish a Stem Center
The English Department is proud to report a very successful 2010 – 2011 academic year for the new Associates of Arts Degree in English. The spring semester concluded with the first class of English majors (about 27 students in all) finishing the sequence of English major requirements and transferring to state and private universities.

A degree in English prepares students for any profession which requires research and writing skills. The English program at Mission will allow for the type of preparation that will enable you to be successful both at your four year university and in the workforce. Just check out what last year’s students had to say about the program!

For more information on the English major, visit our English website at www.lamission.edu/english or contact Dr. Louise Barbato, the Department Chair, at Barbatlc@lamission.edu

What do former students say about the English program?

“The English courses at L.A. Mission were any literature enthusiasts’ dream. Walking into class with an ardent professor who was well organized and motivated to teach her subject, really encouraged me to not only want to go to class, but to actually do the work. The guidelines for papers were well put together. Now at UCSB, as I read the syllabi for my classes and realize that by week 5, I will have to turn in a 7 page paper on Wordsworth for a 17th century poetry class and a “creative project” due for a Literature of Technology class, I feel I have enough background and experience to take on these tasks without too much anxiety since these were things I had already done in my LAMC Literature courses. The expectation for legitimate, academic sources (books, not Wikipedia!) was one solid habit I acquired from my literature courses. The discipline instilled in me has been helpful in my transition from semester to quarter system. I’m thankful for the solid foundation the English professors at LAMC gave the students of the English major.”

Raquel Olmedo
~ former Mission College English major, currently a student at UCSB

“I was lucky enough to transfer to UCLA through the English program at Los Angeles Mission College. The experience and knowledge that I gained through the English program prepared me with writing skills, confidence, and discipline. The teachers are exquisite and always make time for their students. I would go back and retake every class in a heartbeat!”

Blair Taylor
~ former Mission English major, currently a student at UCLA

“I loved everything about the English program at Mission. The English program prepared me for what I am now working on at my university, USC. The English professors I had at Mission were extremely wonderful in the ways they built relationships with their students and in the ways they conducted their classes. I felt a strong sense of community in the English department; I knew everyone!

Mission college did a great job in preparing me for USC. The fact that there is an intimate classroom at Mission allows the professors to get to know and inspire students. Aside from that, the English program at USC is very much like the English program at Mission College.”

Kyle Doss
~ former Mission College English major, currently a student at USC

Disabled Student Program & Services
DSPS offers counseling, tutoring, and assistive technology accommodations so that our campus upholds laws put in place to ensure all students equal rights to attend and succeed in higher education. Our counseling hours have increased, meaning more student support.

Regarding assistive technology accommodations services, we plan to upgrade our DSPS assistive technology software and hardware to meet the demand of disabled students. We are also looking at equipping other campus computer lab areas with adaptive software and hardware. We help inform faculty and administrative staff on compliance with The Americans with Disability Act and ADA technology laws. We are planning to provide workshops during the fall and spring semesters.

Please contact us for more information on accommodations. Visit us at www.lamission.edu/dsp2 for contact information.

PACE classes are also listed in the Spring schedule.
For up-to-date information, go to
www.lamission.edu/pace

PACE students often combine PACE courses with other online, hybrid and short-term classes. Work with your counselor and the PACE Director to put together a schedule that meets your needs.

NEW PACE STUDENTS: Attend the PACE Orientation the Saturday before classes begin, February 4, 9-10am, CMPC 5. Call the PACE Office for more information.

WHO: PACE courses are offered in an accelerated format convenient to students’ work schedules. Some students participate in the complete PACE program (see “Why” below for program features). However, PACE courses are open to ALL Mission College students, so anyone can sign up for a PACE course while taking traditional, online or other course formats.

WHY: PACE offers convenient scheduling, quality instruction, and a supportive staff. PACE features collaborative learning, field trips, artistic performances, and social events to enhance your educational experience.

WHAT: PACE has five tracks (Elementary Teaching, Business, Social Science, Health Science, and General Studies) to help students meet their transfer requirements while earning an A.A. degree. All PACE courses are fully transferable to CSU and UC.

WHERE: Currently all PACE courses meet on campus.

WHEN: Most courses in PACE are offered in an accelerated eight week format. Students attend class one evening a week and every other Saturday for eight weeks. A student can earn 12 units per semester by taking two courses in the first eight week session and two more in the second eight week semester. Each PACE course is paired with another PACE course so that students may earn six units in session A, and six more in session B. (Go to the website for complete PACE information.)

A Sample Schedule for Paired 3-Unit Courses:
Course 1: Tuesday 6-8pm and scheduled PACE Saturdays 8-12 (Student must attend both days. Courses do not meet on all Saturdays – see schedule.)
Course 2: Tuesday 8:10-10:10pm and PACE Saturday 12:30-4:30 (Student must attend both days. Courses do not meet on all Saturdays – see schedule.) Students may take one or both courses.

4-Unit Science Courses and 5-Unit Business and Math Courses meet per the evening schedule indicated and every Saturday, and some are 16 weeks long.

Hybrid PACE Courses:
Students attend only four Saturday sessions and complete the remainder online.

PACE Basic Skills in Math and English: These courses, called bridge courses, are generally offered on Monday evenings or on Saturdays– see schedule.

SPRING 2012 SCHEDULE OF CLASSES
ITV/The Weekend College classes allow students to complete general education classes in a focused eight-week format. The classes are offered on four campuses: City [C] and Southwest [SW] Colleges on Saturdays and Valley [V] and Pierce [P] Colleges on Sundays. The first college listed is AM only 9:00-12:00 Noon. The second college listed is PM only 1:30-4:30 PM. Students attend only one class meeting each weekend and may attend at any location.

The classes are taught by the same instructor at each campus. The classes are taught in a highly effective “blended format” combining the weekend class meetings with 26 half-hour video lessons available on cable television in the City of Los Angeles. The video component is also available in broadband, on DVD and in the College Learning Resources Centers on campus. Each class also has an online component creating a dynamic learning environment for all students.

Students enroll online on the Student Information System, select ITV as the campus. Students are advised to consult with a College Counselor when planning their Associate Degree or transfer program. For questions or registration assistance, call 818/833-3595. Financial aid is available for qualified students; fee waivers also apply to these classes. Transcripts are issued by L.A. Mission College.

LAMC has numerous agreements with university and college campuses that give students who participate in these programs various transfer application advantages, the most important being priority admission. If you are interested in transferring to UCLA, we have a specific honors transfer program called UCLA Transfer Alliance/Honors Program (TAP). In addition, as a member of the Honors Transfer Council of California, LAMC participates in an alliance with many additional campuses. Information on both programs follows.

UCLA Transfer Alliance/Honors Program

The Los Angeles Mission College Transfer Alliance/Honors Program is designed for motivated students who plan on transferring to a four year college or university. The program consists of academically enriched general education courses in which both written expression and the critical analysis of ideas are stressed. The TAP program offers participating students priority admissions to UCLA and additional opportunities at other universities. Both current and new students may apply to be part of the TAP program.

Requirements: Students will complete five honors courses and maintain at least a 3.25 grade average, and honors designation will appear on the students’ transcripts. For each honors course, students will complete a research project or paper designed in collaboration with the Honors Director Dr. Mike Fenton and the faculty member teaching the course.

Application requirements:
- **Current LAMC students** must be eligible for English 101 and have completed 12 transferable units with a GPA of 3.25 or higher.
- **Entering students** must have a high school GPA of 3.50 or higher or an SAT score above 1,000, and their placement tests must place them in English 101 or higher.

If you do not meet a specific requirement but would like to be able to participate in TAP, please write to Dr. Mike Fenton at fentonms@lamission.edu to discuss your particular situation.

Application Packet Requirements:
Interested students should put together a packet that includes unofficial transcripts, a personal statement, faculty recommendation and a completed application which can be found on the Honors website: www.lamission.edu/honors/default.aspx

Contact Information for the UCLA Transfer Alliance/Honors Program:
- Contact Honors Counselor Afri Walker, 818.364.7647, or Honors Coordinator Dr. Mike Fenton, 818.364.7888

Additional Transfer Agreements through the Honors Transfer Council of California

This program was created to promote academic excellence, to stimulate creative intellectual thinking and discussions of academic issues among students and faculty, to increase awareness of current social issues, to encourage community service, to celebrate cultural diversity, and to prepare students for successful university transfer. LAMC Membership in the Honors Transfer Council of California gives our students the opportunity to participate in many honors agreements and the primary benefit is priority admission. To learn more about the Honors Transfer Council of California and the programs, agreements, priority admission, scholarships and other activities they offer to our students, go to www.honorstcc.org

Participating Universities and Colleges:
Some of the universities and colleges that offer honors program transfer agreements and priority admission to those students who complete all requirements at the time of application for transfer are:
- UC Irvine - Pomona College
- UC Riverside - Pitzer College
- UC Southern California - La Sierra University
- CSU Fullerton - Whitman College
- CSU San Diego - Pacific University
- CSU Stanislaus - Claremont College
- Chapman University - Occidental College

Benefits to Honors Program Participants at Each School:
Each University or College listed above has specific requirements and guidelines and each offers varying additional advantages outside of priority admission for students who complete the Honors Program requirements described. These advantages may include priority housing, scholarships and other benefits. Transfer agreements for participating schools may be viewed at www.honorstcc.org/transfer/HTCC_Agreements.pdf

Requirements: The requirements are the same as they are for the UCLA TAP Program described above. Students must be eligible for English 101 and have completed 12 transferable units with a GPA of 3.25 or higher. Entering students must have a high school GPA of 3.50 or higher or an SAT score above 1000, and placement tests must place them in English 101 or higher. To earn Honors Program Certification, students must complete five honors courses with a 3.00 grade average, and honors designation will appear on the students’ transcripts. For each honors course, students will complete a research project or paper with a specific faculty member for a class in which the student is enrolled.

Contact Information for HTCC Honors Transfer Programs: Call Counseling at 818.354.7655 or 818.364.7656 and ask to meet with an honors counselor regarding all programs above. Go to www.lamission.edu/honors/default.aspx for additional materials.
The Learning Resource Center (LRC)
Marie Zaiens, Director: zaiensme@lamission.edu  818.364.7757
Ground floor of the LAMC Library Building

The LRC is a “hub” for activities designed to help students succeed in their classes. The Information Desk is staffed by student assistants who are trained to offer basic support for computing, printing, and copying and who are responsible for scheduling appointments with writing and reading tutors. Highly qualified student tutors, many of whom are enrolled in master’s degree programs, are trained to assist students with academic writing, reading, math, science, and computer assignments as well as class projects and homework. Each semester, a variety of workshops and review sessions are offered covering topics in study skills and grammar. WORKOUTs in critical thinking topics are offered weekly in the “hub” to help students understand what critical thinking involves and how to apply critical thinking skills in any of their classes. The Writing WORKOUTs can prepare students for essay writing for English classes as well as any of other classes that include essay assignments. Workshops in study skills and grammar, biology, chemistry, and science are offered by the Science Success Center, and the Math Center offers tutoring and workshops throughout the semester. For further information on LRC services, please contact the Information Desk at 818.364.7754.

Specialized software and hardware is located in the LRC to accommodate students with disabilities. For more information or training on these specialized programs, please contact Adrian Gonzalez in the DSPS Office, 818.833.3313.

The Los Angeles Mission College Child Development Lab School has collaborated and partnered in the instruction of students since their inception 36 years ago. The CDC laboratory school is an institution of learning as well as offering students access to college. Our program is grounded in theory, the latest studies and current best practice. Early childhood education is fluid and changes with the needs of the community and society. What has not changed in over 30 years is that the first 5 years of life is the most significant in learning and comprehension. Studies have only reinforced the need for early education, especially with new studies regarding brain development. Our ratio’s and participation of vested individuals make us a utopian society of care and education for children. We have the ideal environment that is conducive to learning. We have highly experienced and educated staff, low ratios and purposeful collaboration.

The Urban Teacher Fellowship program is a teacher preparation and career pathway program that supports students with barriers to success in attaining their high school diploma/ GED (if needed), Associate’s degree, and transfer to Cal State Northridge in a cohort model. Participants must be 18-24 years of age, must meet WIA and Right To Work eligibility requirements, be a Liberal Studies major, and committed to a career in teaching K-12.

Services include:
• Learning Community – coursework is primarily taken as a cohort
• Supportive Services: case management, academic counseling, and Financial Aid application support
• Assistance in obtaining part-time employment in an after-school program
• Guaranteed transfer admission to Cal State Northridge*

New Rules About The Number Of Times You Can Attempt A Course

Effective Summer 2012, course withdrawal (“W”) or a substandard grade (“D,” “F,” or “NP”) count as an attempt at a course. Only three attempts at any one course will be allowed, with some exceptions. Listed below are the new rules that all students need to know about.

• Students who drop or are excluded after the last day to drop without a grade of “W” will have a “W” appear on their transcript. The “W” will count as an attempt for that course.

• A course in a student’s transcript which currently shows a recorded “W” counts as an attempt for that course.

• Students will not be allowed to register for any course within the LACCD if there are three recorded attempts for that course in any combination of W, D, F, or NP grades.

• Add permits for a course within the LACCD will not be processed if there are three recorded attempts for that course in any combination of W, D, F, or NP grades.

• For courses specifically designated as “repeatable,” students may repeat up to three times. (See Title 5 California Code of Regulations sections 55040, 55041, 58161).

• Where the student’s number of enrollments in a course exceeds the allowable amount, the student may petition for an additional enrollment in cases of extenuating circumstances.

What students should do:
• Be sure you are academically ready for classes you enroll in.
• If you must drop a course, drop before the specified deadline for dropping a class without a grade of “W.”
• See a counselor before making decisions that could affect your educational plan.

Consequently, some ESL classes are combined, and other ESL classes have corequisites. Students receive maximum benefit by taking all classes in each level concurrently.

Level 1: ESL 1 integrated (combined skills) - 12 units MTWTh
Level 2: ESL 2 integrated (combined skills) - 12 units MTWTh
Levels 3, 4, 5, and 6 have A, B, and C components:

- ESL 3C, 4C, 5C, 6C: Listening/Speaking, 3 units, TTh

Level 7: ESL 8: Advanced ESL Composition - 6 units, MW
ESL 8 is equivalent to English 28 and satisfies the prerequisite for English 101.

Assessment - Which Level Should I Take?
All new students must take the Mission College ESL Placement Test. The results of this test will indicate which level you should enroll in. Mission College does not accept assessment test results from other colleges or adult schools.

ANNOUNCEMENT: Title 5, section 55035, prohibits students, who have completed 30 units of “remedial” (basic skills) course work, from enrolling in any additional credit basic skills courses. Starting with the Winter 2010 registration cycle, this requirement will be reinforced by DEC. If a student who has exceeded the 30 unit limit enrolls in a credit or noncredit ESL course, the student will be permitted to enroll in additional basic skills courses. Also, Title 5 exempts students with learning disabilities. The DSPS Office can authorize a system override for these students. The actual override functionality is in A&R so the DSPS Office will have to coordinate this effort with the Admissions Office. This restriction does not apply to non-credit basic skills courses. Students, who have exceeded the 30 unit limit, should be encouraged to enroll in non-credit basic skills courses.
The Application & Matriculation Process: A Step-by-Step Guide

The STEPS TO SUCCESS Matriculation Process connects Los Angeles Mission College with students who enroll for credit courses into an agreement for the purpose of realizing the student’s educational goals through the college’s programs, policies, and requirements.

Matriculation Exemptions Status: At the time of application, all students are classified as Exempt or Non-Exempt from various matriculation components. Students may be exempt from one or more of the individual steps described below. Exempt students may participate in all matriculation components. All other students are coded as non-exempt and are expected to complete orientation, assessment, and counseling during their first semester at Los Angeles Mission College. Please refer to exemptions as they pertain to the steps below.

Students must have their LACCD ID Number and present a valid form of picture ID prior to taking the assessment tests.

NOTE: The Math assessment process requires students to self select the appropriate test level (Algebra Readiness, Elementary Algebra, Intermediate Algebra or Pre-Calculus). For more information on choosing the appropriate Math assessment test, please visit www.lamission.edu/math and select “MDTP Sample Tests” from the Main Menu.

Assessment Results:

Prerequisites, Corequisites & Advisories

Prerequisite: A class or skill you must have prior to enrolling in the target class. The faculty of that discipline requires the prerequisite because they feel it is necessary for you to succeed in the target course.

Corequisite: A class that must be taken simultaneously with the target course. A corequisite may be completed with passing grade (“C” or better) prior to enrollment in the target course.

Advisory: A class or skill you are advised to have, but not required to have, prior to enrolling in the target course.

Target Course: Any course which the faculty has determined that requires completion of a prerequisite, corequisite, or advisory course.

Placement Level: The outcome from the assessment process which is used for placing students into the appropriate level of English, Mathematics, and English as a Second Language courses.

Registration Limitation
All students need to demonstrate meeting the prerequisite or corequisite requirement in order to enroll into the target course.

- If the student satisfies the requirement by completing a class with a grade of “C” or better at LAMC or through the assessment process, he/she will be cleared for registering into the target course.
- If the student has satisfied the prerequisite or corequisite and/or placement at another college or through another method, he/she must submit the appropriate documentation (i.e. an official transcript or CCC placement results) to the Counseling Department located in the Instructional and Student Services Building (818.364.7655).

Once a counselor reviews the documents and finds that the prerequisite or corequisite has been satisfied, the counselor will issue a course placement authorization form. This form, once signed by the counselor, needs to be turned into the Admissions office along with the necessary add slip by the student for processing.

Prerequisite Challenge Procedure
All students need to demonstrate meeting the prerequisite or corequisite requirement in order to enroll into the target course.

- If the student satisfies the requirements by completing a class with a grade of “C” or better at LAMC or through the assessment process, he/she will be cleared for registering into the target course.
- If the student has satisfied the prerequisite or corequisite and/or placement at another college or through another method, he/she must submit the appropriate documentation (i.e. an official transcript or CCC placement results) to the Counseling Department located in the Instructional and Student Services Building.

Once a counselor reviews the documents and finds that the prerequisite or corequisite has been satisfied, the counselor will issue a course placement authorization form. This form, once signed by the counselor, needs to be turned into the Admissions office along with the necessary add slip by the student for processing.

Prerequisite Challenge Process
1. Pick up the challenge form at the Counseling Office. It is required that students seeking to go through the challenge process meet with a counselor to discuss the process in further detail.
2. All challenge forms must be submitted at least five (5) working days prior to the first day of instruction as stated in the Schedule of Classes (please note: the challenge process takes five working days to complete). Challenges filed after this deadline will be considered for the following semester. If the challenge is approved or the college fails to resolve the challenge within 5 working days, the student shall be allowed to enroll in the course.
3. Once a petition packet is complete (including standard and discipline specific documents), the student will deliver it to the department responsible for the prerequisite or corequisite course. Once a complete packet is received, the department will have five (5) working days within which to make its decision. Whereupon the department chair or department designee will sign and date the petition. Incomplete petition packets will not be accepted. If the Chair and/or Vice Chair is the instructor of the course that the student wishes to enter, then the Chair and/or Vice Chair will identify another faculty member in the discipline to review and approve the challenge form.
4. Upon review of the challenge, within three (3) working days of reaching its decision, the responsible department will attempt to notify the student using contact information provided on the petition form. All students requesting further information will be directed to contact the counseling department.

Right to Challenge Prerequisites
Students have the right to file a challenge for any prerequisite or corequisites. Challenges can be based upon the following:

- The student has the knowledge or ability to succeed in the target course despite not meeting the prerequisite or corequisite. (Criteria for challenging based on knowledge or ability to succeed will be determined by each Academic Department.)
- The prerequisite or corequisite is not valid because it has not been established in accordance with the District’s policy.

GENERAL POLICIES

This schedule is an official publication of Los Angeles Mission College. It sets forth rules and regulations and, in case of conflict with information previously published, supersedes those publications of earlier date.

Mission of Los Angeles Community Colleges
The mission of the Los Angeles Community Colleges is to provide comprehensive lower-division general education, occupational education, transfer education, transitional education, counseling and guidance, community services, and continuing education programs which are appropriate to the communities served and which meet the changing needs of students for academic and occupational preparation, citizenship, and cultural understanding.

IN PURSUIT OF THIS MISSION, WE ENDEAVOR TO:
• Promote equal opportunity for participation;
• Maintain appropriate standards for academic achievement;
• Provide an educational environment which meets the needs of students with varied learning skills;
• Provide support services which contribute to instructional effectiveness and student success;
• Affirm the importance of multi-cultural, international, and intercultural collegiate experiences that foster individual and group understanding; and
• Manage effectively educational and financial resources.

Students’ Statements
Falsification of any record or signed statement, or the withholding of information, subjects the student to immediate suspension or expulsion.

Instructional Materials
Students may be required to provide instructional and other materials required for a credit or noncredit course. Such materials shall be of continuing value to a student outside of the classroom setting and shall not be solely or exclusively available from the District.

Withdrawal
Students wishing to drop a class or withdraw from the college during the semester may do so easily online through the Student Information System at www.laccd.edu or in person during Admissions Office hours. Failure to withdraw officially may result in an “F” grade. Students must withdraw on or before the 11th week (75%) in order to receive a W. Students in short-term classes must withdraw before 75% of the course is completed. After the 11th week or 75% completion of the course, a student is assigned a letter grade (A through F). Do not depend on your instructor to exclude you from your class. Instructors are not obligated to exclude a student for non-attendance. IT IS THE STUDENT’S RESPONSIBILITY TO WITHDRAW OFFICIALLY.

HOW TO DROP CLASSES OR WITHDRAW FROM COLLEGE
1. Dropping classes or withdrawing from the college must be done by the drop date deadline for that class.
2. To drop classes online, have your student identification number ready and go to www.laccd.edu. Click on the upper right corner “Register for Classes,” then select registration and select drop. Follow the prompts. Make a note of your confirmation number and check that your class is no longer in your schedule.
3. To drop classes in person, fill out a “Drop Card” and present the form and a picture identification at the Admissions Office. To drop ALL classes (withdrawal) check item number one, the first box, on the drop card. The Admissions staff processes the form and gives you a receipt. Keep your receipt for your records.
4. Fees are not automatically refunded. Fee refunds must be requested from the Business Office if you drop classes or withdraw by the refund deadline for that class. Refund deadlines are earlier for short term classes.
5. Students in PACE or other short term classes must check withdrawal deadlines with the appropriate program director, the instructor or with the Admissions and Records office.

Withdrawal from Classes
THROUGH THE 3rd WEEK: No notation (“W” or other) will appear on the student’s record if the class is dropped during the first three weeks of the semester (or 30% of the class for short-term classes).
THROUGH THE 11th WEEK: A notation of "W" (withdrawal) is recorded on the student’s record for classes dropped during the 4th through the 11th week of the semester.
AFTER THE 11th WEEK: Students who remain in class beyond the 11th week (or 75% of the class for short term classes) are given a grade by the instructor. THAT GRADE CANNOT BE A "W" (withdrawal).

Access to Records
The California Legislature passed S.B. 182 (Stull), which codifies provisions of the Education Code and the Federal statutes implementing the Family Education Rights and Privacy Act of 1974 (Buckley Amendment). This permits students to inspect their personally identifiable records maintained by the college, and permits access to these records only upon the student’s request (other than to certain specified categories). Information on these laws and college procedures in implementing them may be obtained from the Associate Dean of Admissions, who serves as the College Records Officer. Copies of pertinent State and Federal legislation are available for inspection.

Los Angeles Mission College considers the following information relating to a student to be directory information: student’s name, city of residence, date of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent educational agency or institution attended by the student. Students who do not wish any or all of the above categories of information to be given out should so indicate on their application at time of enrolling. Students are asked to voluntarily provide their student identification number for this purpose.

Family Educational Rights and Privacy
The Family Educational Rights and Privacy Act (FERPA) affords students the following rights with respect to their educational records:
1. The right to inspect and review the student’s education records which includes discipline records, within 45 days from the date the College receives a request for access.
• Students may submit to the College Admissions Office written requests that identify the specific record(s) they wish to inspect. Within 45 days, the College Admissions Office will make arrangements for access and will notify the student of the time and place where the records may be inspected.
• Education records are those records that are directly related to students and are maintained by the College. Students may not inspect education records pertaining to parents’ financial records and certain confidential letters or recommendations.
General Policies

2. The right to request an amendment of the student’s educational records which the student believes to be inaccurate, misleading or otherwise in violation of the student’s privacy rights.
   • With the exception of grade grievances which are handled through Administrative Regulation E-55, students may ask the College President, or his/her designee to amend a record that they believe is inaccurate, misleading, or in violation of their privacy rights. A student seeking to amend an educational record should write to the College President and clearly identify the part of the record he/she wants changed and specify why it is inaccurate, misleading, or in violation of his/her privacy rights.
   • If the College President, or his designee, decides not to amend the record as requested by the student, the College, in accordance with section 99.21 of the Code of Federal Regulations and section 76232 of the Education Code, will notify the student of the decision and of his/her right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s educational records, except to the extent that FERPA and California law authorize disclosures without consent.
   • If a student authorizes the release of his/her education record to a third party, he/she shall provide a dated written consent to the College Admissions Office authorizing said release with a specific list of the information to be released.
   • Federal and California law authorize certain disclosures of personally identifiable information without a student’s written consent. One such exception is the disclosure of personally identifiable information to school officials with legitimate educational interests. School officials with legitimate educational interests are employees or agents of the Los Angeles Community College District who need to review educational records in order to fulfill their professional responsibilities.

4. The right to restrict disclosure of personally identifiable information that the College has designated as directory information which may be released without the written consent of the student.
   • Directory information may be disclosed without a student’s consent unless the student has notified the college that he/she does not want all or portions of the directory information released.
   • To do so, the student must submit the appropriate District form to the College Admissions Office requesting that some or all of the categories of directory information not be released without his/her consent. This form must be submitted in accordance with College policy.
   • Pursuant to Board Rule 5201.10, the Los Angeles Community College District has designated the following student information as directory information:
     (a) the student’s name, city of residence, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most previous educational agency or institution attended by the student;
     (b) student employee records may be released in order to comply with collective bargaining agreements;
     (c) the names, addresses and telephone numbers of students or former students may be released to the foundation for each college for college-related activities at the discretion of the College President, unless the student or former student has informed the College that such information should not be released. The release of this information is conditioned upon the foundation’s agreement that such information will be released in accordance with District policy and that information will not be released to third parties;
     (d) at the discretion of the College President, the names, addresses and telephone numbers of students from the College may be released to heads of private and/or public institutions of higher education, or their designees, for the purpose of providing information to student regarding transfer opportunities to those institutions, unless the student has indicated that such information should not be released. The release of this information will be conditioned upon the institution’s agreement that student privacy rights under federal and state law will be protected and that information will not be released to third parties.
   • The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:
     Family Policy Compliance Office
     U.S. Department of Education

Student Right-to-Know Disclosure
In compliance with the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542), it is the policy of the Los Angeles Community College District and Los Angeles Mission College to make available its completion and transfer rates to all current and prospective students. Beginning in Fall, 1996, a cohort of all certificates, degree, and transfer-seeking first-time, full-time students were tracked over a three-year period. Their completion and transfer rates are listed below. These rates do not represent the success rates of the entire student population at all California Community Colleges, nor do they account for student outcomes occurring after this three-year tracking period.

Based upon the cohort defined above, 28.2 percent attained a certificate, degree, or became “transfer-prepared” during a three-year period from Fall 1997 to Spring 2000. Students who are transfer-prepared have completed 56 transferable units with a GPA of 2.0 or better.

Based upon the cohort defined above, 29.8 percent transferred to another post secondary institution (CSU, UC, or another California Community College) prior to attaining a degree, certificate, or becoming transfer-prepared during a five semester period from Spring 1998 to Spring 2000.

Student Grievance Procedure
The purpose of the Student Grievance Procedure is to provide a prompt and equitable means for resolving student grievances. The grievance procedure may be initiated by a student or group of students who reasonably believe he/she/they have been subject to unjust action or denied rights that adversely affect his/her/their status, rights, or privileges as a student. It is the responsibility of the student(s) to submit proof of alleged unfair or improper action.

Grievances pertaining to grades are subject to California Education Code Section 76224(a) which states: “When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student’s grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetence, shall be final.”

52 LOS ANGELES MISSION COLLEGE
This grievance procedure does not apply to the challenge process for prerequisites, corequisites, advisories, and limitations on enrollment; alleged violations of sexual harassment; actions dealing with student discipline; alleged discrimination on the basis of ethnic group identification, religion, age, sex, color, sexual orientation, physical or mental disability; or an appeal for residency decision; or to eligibility, disqualification, or reinstatement of Financial Aid. Informal resolution is encouraged.

A written Statement of Grievance must be submitted to the Compliance Officer within thirty (30) instructional days of the incident or after the student(s) learns of the basis for the grievance.

**Recording Devices in the Classroom**

Section 78907 of the California Education Code prohibits the use of any electronic listening or recording device without prior consent of the instructor. Any student violating this section is subject to disciplinary action. Any non-student who willfully violates this section is guilty of a misdemeanor.

**Standards of Student Conduct and Disciplinary Action**

The Standards of Student Conduct and Disciplinary Action for violation of rules were established by the Board of Trustees of the Los Angeles Community College District on September 2, 1969. A student enrolling in one of the Los Angeles Community Colleges may rightfully expect that the faculty and administrators will maintain an environment in which there is freedom to learn. This requires that there be appropriate conditions and opportunities in the classroom and on the campus. As members of the college community, students should be encouraged to develop the capacity for critical judgment, to engage in a sustained and independent search for truth, and to exercise their rights to free inquiry and speech in a responsible, non-violent manner. Students shall respect and obey civil and criminal law and they shall be subject to legal penalties for violation of laws of the city, county, state, and nation. Student conduct in all of the Los Angeles Community Colleges must conform to District and college rules and regulations. Violations of such rules are subject to the following types of disciplinary actions, which are to be administered by appropriate college authorities against students who stand in violation. Each of the Los Angeles Community Colleges shall establish due process of law for administration of the penalties enumerated here. Penalties are listed in degree of severity but not as chronological order. College authorities will determine which type of penalty is appropriate.

1. **WARNING** – Notice to the student that continuation or repetition of specified conduct may be cause for other disciplinary action.
2. **REPRIMAND** – Written reprimand for violation of specified rules. A reprimand serves to place on record that a student’s conduct in a specific instance does not meet the standards expected at the college. A person receiving a reprimand is notified that this is a warning that continued conduct of the type described in the reprimand may result in formal action against the student.
3. **DISCIPLINARY PROBATION** – Exclusion from participation in privileges or extra-curricular college activities set forth in the notice of disciplinary probation for a specified period of time. The imposition of disciplinary probation involves notification in writing of the reason for disciplinary probation to the student(s) or president of the student organization involved.
4. **RESTITUTION** – Reimbursement for damage or for misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damage.
5. **SUMMARY SUSPENSION** – A Summary Suspension is for purposes of investigation. It is a means of relieving the tension of the student body or individual class due to a serious infraction of student behavior standards, removing a threat to the well-being of the students, or removing for the good order of the college a student or students whose presence would prevent the continued normal conduct of the academic community. Summary Suspension is limited to that period of time necessary to insure that the purposes of the Summary Suspension are accomplished, and in any case, no more than a maximum of 10 school days. Summary Suspension is a type of suspension other than that ordinarily invoked by the instructor in the classroom. The College President, appropriate administrator, or other staff member designated by the President may summarily suspend a student when he deems it necessary for the safety and welfare of the college.
6. **DISCIPLINARY SUSPENSION** – Disciplinary Suspension follows a hearing based on due process of law. It shall be invoked by the College President, appropriate administrator, or other staff member designated by the President, upon students for misconduct when other corrective measures have failed or when the seriousness of the situation warrants such action.
7. **EXPULSION** – An expulsion is a long-term or permanent denial of all campus privileges including class attendance. The President of the college and/or the Board of Trustees may expel a student who has been convicted of a crime arising out of a campus disturbance or, after a hearing by a campus body, has been found to have willfully disrupted the orderly operation of the campus. The President shall submit periodic reports on all expulsion cases to the Superintendent and the Board of Trustees. Violations of the Standards of Student Conduct are as follows:

- **9803.10 Willful Disobedience:** Willful disobedience to directions of college officials acting in the performance of their duties.
- **9803.11 Violation of College Rules and Regulations:** Violation of college rules and regulations, including those concerning student organizations, the use of college facilities, or the time, place, and manner of public expression or distribution of materials.

Student ID

To comply with federal privacy requirements, Los Angeles Mission College and the Los Angeles Community College District has discontinued use of the Social Security Number as the student’s identification number. Instead, a new Student Identification Number will be issued for each student. The college can only release this number to the student. The new nine-digit number is randomly generated, but each will begin with the digits “88.” Students will use the same Identification Number in all nine colleges of the District.

Your first Student ID Card is free. Go to either admissions or the business office to obtain yours. Student identification cards are only issued for the current semester. All current semester fees must be paid in full to receive a student identification card. You will need to present your student registration/receipt for the current semester and also a second form of picture identification such as a California ID or a high school picture ID.

Check www.lamission.edu for current office hours of either the Business Office or Admissions and Records.

Where to use your new student ID card:
A valid student ID card is required to access student services in the following areas:

- Library
- Bookstore
- Financial Aid
- Health Center
- Computer Labs
- Health & Fitness Center

SPRING 2012 SCHEDULE OF CLASSES
The Intersegmental General Education Transfer Curriculum (IGETC) is a general education program that community college prospective transfer students may complete to satisfy the lower division general education requirements for either the UC (University of California) or CSU (California State University) system without the need to take additional lower-division general education courses after transfer.

All IGETC coursework must be completed with a “C” or better. Courses in which a student receives a “pass” grade may be used if the community college’s policy states that a “pass” is equivalent to a “C” grade (2.0) or better. The UC system allows a maximum of 14 semester units (of the 60 required, transferable units) on a Pass/No Pass basis. There is no CSU system-wide policy on limitations for a “pass” grade, therefore each CSU campus has its own established policy (please check with your CSU campus of choice). Courses may only be used once to satisfy one IGETC subject area (even if listed under multiple areas), however, courses may be used to satisfy IGETC general education areas AND major preparation requirements. Major preparation requirements can be accessed at www.assist.org, the official source for California articulation and student transfer information.

The IGETC is NOT an admission requirement to the UC or CSU system. There is no connection between completion of the IGETC and eligibility for admission to the UC or CSU system, or admission to a specific campus or program. Existing segmental and campus-specific admission requirements for transfer students remain unchanged. Requirements for lower-division courses for admission to particular majors also remain unchanged. The IGETC plan will total approximately 34-37 transferable units. A recommended total minimum of 60 units must be completed prior to transfer, for priority admission status.

If you are approaching readiness for transfer and are unable to complete one or two IGETC courses, you may be eligible for partial certification (and complete IGETC after transferring). “Certification” means that LAMC has verified that a student has completed the lower division General Education requirements listed in each area of the IGETC. Certification does not guarantee admission or admission eligibility. Certification is not required and is not automatic; it must be requested by the student at the time the final official transcript is sent. A student may only be granted IGETC certification once (either partial or complete) prior to their first semester at the 4-year university. Students receiving partial certification must ensure that admission criteria for the university has been met (IGETC areas I and II). Students may complete the necessary coursework at the transfer institution and may NOT return to the Community College for complete certification if partial certification was granted. Without certification, the student will be held to the specific general education requirements of the university campus of choice. Please note, the UC Berkeley, College of Letters and Science does not accept partial Certification.

Courses taken at several institutions may be used to fulfill the IGETC. Students should be aware, that placement of courses within IGETC subject areas may vary from college to college. Placement of a course will be based on the college of attendance and its IGETC pattern at the time the course was completed. Completion of the IGETC program may be certified by the last community college, which the student attends. Foreign coursework (from non-U.S. regionally accredited institutions) may not be used on the IGETC.

It is NOT advisable for ALL students to follow the IGETC. Some students may be better served by taking courses that fulfill the CSU General Education Breadth requirements or the general education pattern of the UC or CSU campus or college to which they plan to transfer. Students pursuing majors that require extensive lower division major preparation, (such as Engineering on all campuses or Business at UC Berkeley) may not find the IGETC option to be advantageous. The Eleanor Roosevelt College and Revelle College of UC San Diego do not accept IGETC. Additional lower-division general education requirements may be needed prior to transfer. The IGETC will be most useful for students who want to keep their options open before making a final decision about transferring to a particular UC or CSU campus.

Los Angeles Mission College

SPRING 2012 SCHEDULE OF CLASSES
IMPORTANT INFORMATION: Courses on this list are approved for a specific academic year, which begins with the Fall 2011 semester and remains valid through Summer 2012.

The general education courses listed for the CSU system are specified within subject areas that satisfy lower division general education requirements for the CSU campuses. Students wishing to use a course to fulfill a CSU General Education requirement must be sure that the course is approved for the academic year in which it is taken. The CSU general education form changes each year. It is advised that students meet with a counselor regularly to review any changes. A course must be on the CSU GE Breadth during the term in which it is taken. If a course is taken before it is approved for inclusion, or after it is removed from the list, it cannot be used to meet the area requirement.

CSU GE Breadth Certification is available to community college transfer students who satisfy the general education requirements in each area. “Certification” means that LAMC has verified that a student has completed the lower division General Education requirements listed in each area of the CSU GE Breadth. Certification does not guarantee admission or admission eligibility. Students with full CSU GE Certification will only be responsible for an additional 9 semester units of upper division general education at the CSU campus. CSU Certification is not required and is not automatic; it must be requested by the student at the time the final official transcript is sent. Without certification, the student will be held to the specific general education requirements of the CSU campus of choice.

Students who have taken courses at other colleges can have these courses “passed along” in the certification process. Los Angeles Mission College will certify courses taken at other California Community Colleges in the areas designated by the offering college. Courses taken at California four-year colleges, or accredited out-of-state two-year, or four-year colleges, may be used for certification – please consult a counselor for detailed information. Courses from foreign institutions cannot be used in the certification process. Students requesting CSU GE “pass along” certification must complete at least 12 units in residency at Los Angeles Mission College.

ADDITIONAL INFORMATION
1. A course cannot satisfy more than one General Education area requirement (even if listed under multiple areas).
2. Courses used to satisfy General Education requirements may also satisfy Major Preparation requirements.
3. LAMC recommends that students complete as much of the lower division requirements as possible for the major before transfer. Major preparation requirements can be accessed at www.assist.org, the official source for California articulation and student transfer information. Completion of these requirements may not guarantee admission into the major, but can increase the student’s chances for acceptance. Other lower division courses that are not offered at LAMC may be required for the major after transfer.
4. Students who transfer to CSU may also complete an Associate degree by completing courses in the major (please see a counselor for major-specific information), a Health and a P.E. course to satisfy the General Education requirements for the Associate degree, along with a total of 60 transferable units completed.
5. Completion of the General Education requirements will not guarantee admission into a university but can increase the student’s chances for acceptance.
6. Coursework in areas A1, A2, A3 and B4 must be completed with a “C” or better to meet admissions eligibility to a CSU campus.
7. All coursework must have a cumulative GPA of 2.0 (“C”) or better.
8. This advising form may not be the best general education preparation pathway for ALL majors (such as Engineering, Computer Science and Liberal Studies – Teacher Prep). Please consult with a counselor to determine the best plan to meet your educational goals.

Do you need assistance paying your enrollment fees?

The Board of Governors Fee Waiver Program (commonly referred to as BOG) is a California state program that waives enrollment fees. This waiver does not have to be repaid.

Eligibility: Students must be residents of California and enrolled at Los Angeles Mission College in at least one (1) unit. Fees for audited classes, though, cannot be waived through the BOG.

There are three ways to qualify for the Fee Waiver:

**Method A:** You are a recipient of benefits under the TANF/CalWORKs Program, SSI (Supplemental Security Income), or General Assistance (also known as General Relief). You can also qualify for Method A if you meet one of the following criteria: you have certification from the California Department of Veterans Affairs or the National Guard Adjutant General that you are eligible for a Dependent’s Fee Waiver, you are a recipient of the Congressional Medal of Honor (or are a child of a recipient), you have permanent resident status, are a holder of an asylum or refugee visa, AND/OR 1. a citizen of the United States 2. have lived in the state of California for at least one year and one day.

**Method B:** You meet the income standards as indicated below:

<table>
<thead>
<tr>
<th>Number in Household (Including Yourself)</th>
<th>Total 2010 Family Income (Adjusted Gross Income and/or Untaxed Income)</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>4</td>
<td>$33,075</td>
</tr>
<tr>
<td>Each additional family member</td>
<td>Add $5,610</td>
</tr>
</tbody>
</table>

**Method C:** If you do not qualify based on Method A or Method B, you may be eligible for the BOG fee waiver through Method C by completing the Free Application for Federal Student Aid (FAFSA). With this method, you may be eligible by demonstrating at least $1 of financial need. To qualify under this criteria, you must complete the FAFSA at www.fafsa.gov. Our Federal School Code is 012550.

How to apply: To qualify for Method A and Method B, you must complete the Board of Governors (BOG) Fee Waiver Application. You can pick up the BOG application at the Financial Aid & Scholarships Office or you may download it from the web at www.lamission.edu/financialaid by selecting the “Apply for a Fee Waiver” link on the left side.

Do you know that you may request for a refund of your enrollment fees? If you have already paid your enrollment fees for Summer 2011, Fall 2011, Winter 2012 and/or Spring 2012, you may be eligible for a refund. Just complete the BOG Fee Waiver Application and let the Financial Aid Office determine whether you qualify.

What is Financial Aid?

Financial Aid is funding provided by the federal and state governments, the college, and private entities, to assist students with their educational expenses and is available in the form of grants, scholarships, employment and loans. The form is available annually, starting January 1st, for the following academic year. We encourage students to apply early, as some financial aid sources are limited and awarded to students who apply early and have financial need. To have your FAFSA information sent to Los Angeles Mission College, make sure to use our Federal School Code: 012550.
