III. Budget Cuts Impact to Student Services
We are still not sure what cuts are going to look like for next fiscal year. They cut can be anywhere from 5% to 15%. Student services departments have been asked to project how services will be impacted by the cuts. Library specifically has been asked to bring in information how cuts will affect their department and to bring other issues that affect the LRC that is outside of budgetary issues.

IV. Development of a Student Services Master Plan-
There is discussion of drafting a Student Services Master plan. Educational Master plan makes references to student services but it would benefit the division if they came up with a Master plan that focuses primarily student services.

V. Achieving the Dream Program: LAMC Participation
LAMC will be participating in the Achieving the Dream Program that was started in Texas to increase student success. Participants will fly to Seattle on June 12th to learn more about the program. The LAMC participant will be Dr. Perez, V.P. Alma Johnson-Hawkins, V.P. Joe Ramirez and Hahn Tran.
