Hi David,

Could you save this email about the age of our collection in a pdf for evidence.

Thanks,  
D

Thanks Lauren. Seems really high. Do you know how we compare to others in district.

Donna

**Subject:** RE: chancellor's survey

Hi guys,  
I'm going to start including this as part of the annual statistics.  
For 2013-2014, here are your numbers:

Print books published before 2000: 42,143  
Print books published 2000 or later: 10,328  
Percentage of collection published before 2000: 80%

**To:** Valdes, Lauren E.; Ayers, Donna J.  
**Subject:** RE: chancellor's survey

Hi Lauren,

In the reports module, where do I find the template or how do I run the report?

Thanks,  
David

**Subject:** RE: chancellor's survey

Hi Donna,

I created the two reports templates you will need and gave ownership of the templates to lamctech. One report counts the books published before 2000, one after. Add the two numbers together and divide them into the "before 2000" number to get the percentage of your collection that was published before 2000.

Let me know if you have any questions.

Lauren

Hi Lauren,

When I saw the question I thought how do I know.

If you could create a report for Mission that would be great.

Thanks, Donna

**Subject:** chancellor's survey

There's a new question on this year's Chancellor's survey: What percentage of your collection was published before 2000?

Let me know if you want me to create a report template for you to answer this question.

Lauren
