Hi Donna and Darlene,

Attached is the inventory of computers that we plan on repurposing for the library. Let me know if you need anything further.

Thanks,
Rod

Danny,

Okay, will do. We are planning on repurposing computers so I can provide an inventory. The only purchase is for power and network parts that I'm still working with facilities on. Would copies of email conversations help?

Thanks,
Rod

Rod, please see below. Please provide the evidence that we have increased the number of computers in the Library. Invoices, would be nice. If not, a some type of inventory would be great.
Thanks

Subject: 20 new computers in the library

Hi Danny,

Darlene and I continue to work on Stan IIB. We got input from Matthew Lee and find we need more evidence.
The statement below (in yellow) needs evidence and I think you are the man to provide it.

Could you send me an email saying that Facilities will get the data drops done by the end of the Spring 2016 semester so we can add the 20 new computers. I think IT already has the computers.

. The Library is working with the Information Technology Department and Facilities to install 20 additional data drops to increase student computer access by Spring 2016 (EVIDENCE).

[L1] Matthew Lee comment: ASC is still adhering to evidence citations in each paragraph in which substantive assertions are made, be sure to include them at the end of all such paragraphs. I have not marked other paragraphs below, but the issue does recur.

Thanks so much.

Have a great weekend.

Donna and Darlene
