2014			Fall 2014 → plan for 1000 students	

Los Angeles Trade Technical College

- Bridge programs such as k-12 concurrent enrollment, academic connections, career academies are established but there is no Summer Bridge or FYE for credit courses. In Fall 2009, FYI was formed for students who seek a career certification. ENG 64, ENG 21, and Math 105 were courses offered in FYI.

Los Angeles City College has a FYE website but when click more information, nothing happened.
