Title 5, section 55002 requires grades to be "based on demonstrated proficiency in subject matter and the ability to demonstrate that proficiency, at least in part, by means of essays, or, in courses where the curriculum committee deems them to be appropriate, by problem solving exercises or skills demonstrations by students." Methods of evaluation may include, but are not limited to the following (please note that evaluation should measure the outcomes detailed "Course Objectives" at the beginning of Section II):

Homework: Instructors are required to assign and grade homework and must count as 5-12% of the student's grade in the course. Homework may be collected and graded in the traditional manner or assigned and graded using course-specific website or publisher provided courseware for the required course textbook. Common Final Exam: All math 115 students are required to take a comprehensive departmental common final exam. It should count for at least 30% of the student's final grade in the course. The remaining percentage of the course grade must be based on quizzes and exams.
