SLO/PLO Assessment Policy

If a discipline has failed to assess its SLOs/PLOs in a timely fashion, the discipline's department chair shall participate in an "intervention" whereby faculty members will be called to a special working meeting to either determine how and when the outcomes will be assessed OR post assessments to the on-line system. If the intervention proves unsuccessful after a reasonable time period, commencing the following academic term, the Vice President of Academic Affairs will only schedule enough instructional hours to meet the discipline's full-time faculty members' loads in accordance with Negotiated Agreement.
