## Meet a STEM Tutor!

It's time to go to a tutoring center on campus and learn about this important resource available to you. Go to the Learning Center website to find their **Tutoring Hours** listed on the right side: <a href="https://www.lamission.edu/LearningCenter">https://www.lamission.edu/LearningCenter</a>

When you arrive, ask to talk to a tutor for your course, and introduce yourself. Mark at least one of the following questions to ask the tutor, using the space below to take notes on their response:

- o How do you handle time management between classes, work, family, etc.?
- o What do you do to handle the stress and anxiety of taking a test?
- o What are the most important steps you think I should take to be prepared for this class?
- What would be a good plan for how I can make the most of the tutoring available here?

Tutor Name:	Tutor Signature:
Your Turn: Use the rest of the	space to reflect on your conversation with the tutor and what resonated
	the key "take-aways" that you felt were important to remember? What
makes them important to you?	Would you recommend your friend to go to the tutoring center?
