VII. CTE Licensure Pass Rates

The ACCJC definition for **licensure pass rate** is, in programs for which students must pass a licensure examination in order to work in their field of study, "the number of students who passed the licensure examination divided by the number of students who took the examination." The ACCJC Annual Report form also specifies that rates should only be reported for programs where there were at least ten students who completed the program in the designated year.

Currently, the only program that requires a licensure pass rate is the **Certified Nursing Assistant (CNA)** program, which was launched in Spring 2016.

	2020-2021	2021-2022	2022-2023
Institution-Set Standard	90%	90%	90%
Stretch Goal	100%	100%	100%
Actual Performance	100%	100%	97.1%

VIII. CTE Job Placement Rates

The ACCJC definition for **job placement rate** is, for students completing certificate programs and career education degrees, "the number of students employed in the year following graduation divided by the number of students who completed the program."

The College uses employment rate data from the Career Technical Education (CTE) Perkins V Employment Core Indicator report (found at:

https://misweb.cccco.edu/perkinsv/Core_Indicator_Reports/Default.aspx) for our job placement rates. Employment rates are reported for programs that had 10 or more students

completing certificates or degrees that year in the 6-digit TOP code and that also had at least 10 students in the Perkins V cohort that year (otherwise "****" is displayed).

- **Institution-Set Standard:** Meet the State-set performance goal
- **Stretch Goal:** Increase at least 3 percentage points over the last reported job placement rate for each program *or* to be at the previous/current year's Institution-Set-Standard, whichever is higher

The State-set performance goal (and thus the institution-set standard) for the 2021-2022 cohort was **73.3%**.
